May 7, 2012

To whom it may concern,

Zachry Construction Corporation has contracted Frank's Paving Company for earthwork and paving services for over five years. They have worked successfully on Zachry projects such as Emergency Operations Center and Medical Educational Training Center #1 and #2.

Frank's Paving routinely submits proposals to Zachry on most of our local bid pursuits and frequently is in the competitive range. I have no reservations about the quality of work that Frank's Paving provides and we would enjoy the opportunity to contract with them again.

Frank's Paving has also partnered with Zachry on public service projects and they are a true benefit to our community. It would be a pleasure to discuss our experience with Frank's Paving at any time.

Sincerely,

A handwritten signature in cursive script that reads "Michael Cardona".
